

Angel Training – Creating Content for Teams

Now that you've set up your teams, you can create collaborative spaces using either the forum or the drop box.

NOTE: you set up only one instance of either of these content items. Students will see only their teammates within the space, but you will see all students.

Discussion Forum - Private Team Journal

Use the Discussion Forum for team discussions and collaboration. Students can comments on each others' work and exchange documents by attaching them to their posts.

To set up a team forum, at the Post Permissions tab (fig. 1), uncheck the boxes for "All," and then check all the boxes you need for your teams. Note that you will have to check all boxes for Read, New Post, and Reply, as desired. Then, on the Interaction tab, in the Mode pulldown menu, select "Private Team Journal" instead of "Normal Discussion" (fig. 2).

Drop Box – View Restrictions and Peer Review

Set up a Drop Box for submissions that team members can review. At the Access tab under "View Restrictions," choose "Selected Teams" from the "Team Access" dropdown menu (fig.3), then check the team boxes (fig. 4). At the Review tab, select "Peer Review" from the "User Review" menu.
