Sound

Highline Community College's  
Marine Science and Technology (MaST) Center Presents –

## *Eyes on the Sea: How Are We Teasing Out the Sea's Stories ?*

*Please join us to hear....*

### **Jan Newton**

*Principal Oceanographer,  
Affiliate Assistant Professor,  
University of Washington*

**Saturday, April 18  
12:00 – 12:45**

**Highline Community College  
MaST Center**

Located near the Redondo Beach Park  
<http://www.highline.edu/mast>

Our increasing technological capability for sensing devices and data networking has led to an advanced capability to understand the dynamics of the sea.

What are some of these observing devices? What are we learning? How can I find the data? Come and find out!
