

# Science on the Sound

Highline Community College's  
Marine Science and Technology (MaST) Center Presents –

## *Lingcod Spawning and Marine Preserve Success in Puget Sound Fatherhood Under the Sea*

*Please join us to hear....*

### **Ken Collins**

*Volunteer, Edmonds Marine Park*

### **Kirby Johnson**

*Volunteer, Edmonds Marine Park*

**Saturday, June 20**  
**12:00 – 12:45**

**Highline Community College**  
**MaST Center**

Located near the Redondo Beach Park  
<http://www.highline.edu/mast>

Lingcod are big, ugly, toothy, and great fathers. Their health and abundance is an indicator of the health of Puget Sound. A summary of more than a decade of lingcod nesting surveys in the Edmonds Marine Park will be presented. The results provide a fascinating insight into the lives of these neat predators and demonstrate the impact that a marine preserve and citizen science can have.
